NATIONAL HONOR SOCIETY

Advisor: Rachel Furuta

The Athena chapter of the National Honor Society is an organization of students who have earned membership as being academically excellent, dedicated to service, leaders and young men and women who demonstrate exceptional character. In February of their junior year, students who are eligible candidates for NHS will be invited to attend a meeting where they will receive a Candidacy Packet to complete. Eligible candidates are invited based on a minimum cumulative GPA of 88%. In addition, the packet will require students to submit evidence of their leadership, service, and character.

If students wish to be considered eligible, they will have already had to show proof of community service that is to be completed during the first half of their junior year. Students can begin acquiring these hours as early as July 1 following their sophomore year. Inducted members must complete additional community service and tutoring activities during their senior year.

NHS members are also active in filling a need within the community by organizing school-wide Red Cross blood drives in the Fall and Spring, holding food and toy drives and raising money for not-for-profits. For more information, please see Mrs. Furuta.

DECA

Advisor: Carol Jean Miceli

DECA is a Business club, *integrated into classroom instruction*, which prepares high school students for careers in marketing, finance, hospitality, and management. It helps students prepare academically for college and careers and influences their college and career plans while building their skillset, gaining leadership and public speaking skills, and networking. DECA helps students apply what they learn and connects them to businesses. DECA organizes competitive events across four career clusters: business management and administration, finance, hospitality and tourism, and marketing. Competitions also include entrepreneurship and personal financial literacy.

In March, the top 15 students from the year attend an all day competition at a local college (St. John Fisher) with schools from across the county. The top 35 students in the county then participate in a State competition in late March/early April. Students can get involved by attending any of the practices, contacting their math teacher, or the Advisor.
